

COVID-19 Update, August 1, 2020

Evo Cycle Works LLC will make available both parking lot and mobile service on alternate days of the week to remain in compliance with health emergency orders issued by Governor Hogan.

Due to emergency orders issued by Governor Hogan as related to the COVID-19 pandemic, we have adjusted our operations to offer parking lot service Tuesday, Friday and Saturday and mobile service ONLY on Wednesday and Thursday. Closed Monday for the Fall/winter seasons.

We appreciate your patience and understanding during this time of national emergency.

On parking lot service days the Taft Street studio is fully staffed and open for business. If we are not already outside in the parking lot, please call and we will meet you out front.

Pick-up and delivery shall remain available via our expanded mobile service. For mobile service, please text or email us to arrange an appointment.

The studio will be closed on mobile service days...

On mobile service days we will focus all of our resources on serving clients at their homes by picking up and delivering bicycles. As a result the Taft Street studio will be CLOSED to the public on Monday, Wednesday and Thursday.

Early in the pandemic, Maryland bicycle service centers were classified as "transportation services" and therefore deemed essential by the Governor's Office. Evo Cycle Works has remained open throughout the COVID national health crisis.

However, in an effort to minimize contact between persons, the studio space is closed to the public and staff will take all necessary precautions when interacting with customers. In addition, every bicycle we repair will be thoroughly disinfected before returning it - grips, controls, saddle and other "touch points."

Our staff will wear face masks at all times when interacting with customers and we ask that customers kindly do the same.

As a small business we depend on you, our loyal customers, and we will do everything we can to help keep you and your bike on the road. Remember, riding your bike and staying healthy is still your best defense.

Keep Pedaling!

The Evo Cycle Works Team
